

CHAPTER 16 • PROMPT TO CLOSE

Your 90-Day AI Implementation Plan

Day-by-day checklist to build a fully AI-integrated
real estate practice

Edmund Bogen

From Prompt to Close: The AI Playbook for Real Estate Professionals

Ready for one-on-one coaching or want to explore what AI can
do for your business?

CALL OR TEXT TO GET STARTED

Phase 1: Foundation Setup

DAYS 1-7 • TOTAL: ~3.5 HOURS

The first week is about getting your tools in place and establishing habits. Skip this phase, and everything you build later will be shaky.

DAY 1

Create ChatGPT Plus and Claude Pro accounts

Run one conversation with each -- ask about your neighborhood market.

30 MIN

BOTH

DAY 2

Export MLS data and generate first AI-powered CMA

Export sold and active listings for your farm area as CSV. Use the master CMA prompt from Chapter 3.

45 MIN

CLAUDE

DAY 3

Create first social media content

Use the Interested Suitor framework from Chapter 4. Post it.

20 MIN

CHATGPT

DAY 4

Build your first Claude Skill

Create a reusable instruction set for your brand voice (Chapter 5).

30 MIN

CLAUDE

DAY 5

Upload state contract and run Risk Radar

Upload your standard contract to a Claude Project. Run your first Risk Radar comparison on a recent contract.

30 MIN

CLAUDE

DAY 6

Generate first Client Whisperer weekly update

Create a weekly update for an active transaction using the Client Whisperer prompt.

20 MIN

CHATGPT

DAY 7

Review results and establish daily AI habit

Review all outputs from the week, adjust prompts, and commit to a daily practice schedule.

30 MIN

BOTH

PHASE 1 MILESTONE

By Day 7 you should have both AI platforms active, one CMA you can print and send, one piece of content posted, your brand skill built, your standard contract uploaded, and at least one contract comparison completed.

Phase 2: Core Systems Integration

DAYS 8-21 • TARGET: 8-12 HOURS SAVED/WEEK

With your foundation set, Phase 2 builds the systems that transform how you handle every transaction. Each system you implement makes the others more powerful.

DAYS 8-9

Build FOS Detector workflow

Set up your Fraud/Oversight/Scam detection workflow for suspicious communications.

45 MIN

BOTH

DAYS 10-11

Create listing presentation AI template

Build a reusable template that generates listing presentations from property data.

60 MIN

CHATGPT

DAYS 12-13

Set up AI-powered market analysis workflow

Build a repeatable workflow for generating market analyses from MLS data.

45 MIN

CLAUDE

DAY 14

Week 2 review -- test all systems with real transactions

Run each workflow against a real transaction to validate outputs.

60 MIN

BOTH

DAYS 15-16

Build social media content generation system

Create a system that produces a week's worth of posts in one session.

60 MIN

CHATGPT

DAYS 17-18

Create email newsletter AI workflow

Build a repeatable process for drafting and formatting email newsletters.

45 MIN

CHATGPT

DAYS 19-20

Set up lead response automation templates

Create AI templates for instant, personalized lead responses.

45 MIN

CLAUDE

DAY 21

Week 3 review -- measure time savings

Track hours saved vs. pre-AI baseline. Adjust workflows as needed.

60 MIN

BOTH

PHASE 2 MILESTONE

By Day 21 you should have active workflows for contract review, deadline management, client communication, listing presentations, market analysis, social media content, email newsletters, and lead response.

Phase 3: Advanced Implementation

DAYS 22-45 • TARGET: 15-20 HOURS SAVED/WEEK

You move from basic AI usage to strategic AI integration. The systems you built in Phase 2 become the foundation for more sophisticated workflows that your competitors won't have for years.

DAYS 22-25

Implement LLM Stacking methodology

Start routing content through multiple AI platforms in sequence (Chapter 6). Generate in one tool, refine in the other.

60 MIN

BOTH

DAYS 26-30

Build advanced contract intelligence

Process enough contracts to start recognizing patterns -- which agents modify what, which clauses change most often.

45 MIN/DAY

CLAUDE

DAYS 31-35

Quality enhancement across all content

Use the LLM Stacking Quality Enhancement prompt to review and improve all AI-generated content.

30 MIN/DAY

BOTH

DAYS 36-40

Advanced prompt engineering techniques

Refine your prompts based on 30+ days of output. Build prompt chains for complex workflows.

30 MIN/DAY

BOTH

DAYS 41-45

Measure lead conversion and client satisfaction

Track response rates, client feedback, and conversion metrics. Document improvements.

60 MIN

BOTH

PHASE 3 MILESTONE

By Day 45 you should be running LLM stacking workflows for all major content, using advanced prompt engineering, and beginning to see measurable improvements in lead conversion and client satisfaction.

Phase 4: Automation & Scale

DAYS 46-60 • BUILD CLAUDE SKILLS

Phase 4 is about automating what you've built manually so you can focus on the high-value activities only you can do -- relationships, negotiations, and human judgment.

☐ DAYS 46-48

Build Claude Skill: Contract Review Automation

Create a Skill that automatically compares uploaded contracts against your baseline, flags modifications, and extracts deadlines.

60 MIN

CLAUDE

☐ DAYS 49-51

Build Claude Skill: Listing Presentation Generator

Create a Skill that generates complete listing presentations from property data input.

60 MIN

CLAUDE

☐ DAYS 52-54

Build Claude Skill: Client Communication System

Create a Skill that generates personalized client updates, milestone notifications, and follow-up sequences.

60 MIN

CLAUDE

☐ DAYS 55-57

Build social media content engine

Create an automated workflow that produces platform-specific content from a single topic input.

60 MIN

BOTH

☐ DAYS 58-60

Integration review and optimization

Test all Skills end-to-end. Identify bottlenecks and refine.

90 MIN

BOTH

PHASE 4 MILESTONE

By Day 60 you should have at least 3 Claude Skills active, content creation time reduced substantially, and transaction management should feel almost effortless. You are now operating at a level most agents won't reach for 2-3 years.

Phase 5: Mastery & Optimization

DAYS 61-90 • REFINE, MEASURE, SCALE

The final thirty days are about refinement, optimization, and preparing for what comes next. You've built the systems. Now you make them excellent.

DAYS 61-65

Measure your ROI

Track 3 key metrics: time saved per week, lead response time improvement, client satisfaction. Compare to pre-AI baseline.

90 MIN

BOTH

DAYS 66-70

Optimize contract review workflow

Target: 85-90% time improvement (45-60 min down to 5-8 min per contract).

30 MIN/DAY

CLAUDE

DAYS 71-75

Optimize content and communication workflows

Target: 75-85% time improvement on social media (4-6 hrs/week down to 45-60 min).

30 MIN/DAY

BOTH

DAYS 76-80

Explore agentic AI

Try one agentic AI tool that takes autonomous action on your behalf. Understand the shift from "ask and receive" to "delegate and supervise."

60 MIN

BOTH

DAYS 81-85

Refine and document your system

Create SOPs for every AI workflow you've built. Make them transferable to team members or assistants.

45 MIN/DAY

BOTH

DAYS 86-90

Plan your next 90 days

Set goals for the next quarter. Identify new AI capabilities to explore. Schedule your continued learning.

60 MIN

BOTH

PHASE 5 MILESTONE

By Day 90 you should have a complete AI-integrated practice with measurable ROI, optimized workflows, at least one agentic AI exploration completed, and a clear plan for continued growth. You are now in the top 5% of technology-enabled agents in the country.

What This Actually Costs

TOOL	COVERS	MONTHLY COST
ChatGPT Plus	Content, presentations, social media	\$20
Claude Pro	Contracts, CMAs, Skills, analysis	\$20
Canva Pro	Graphics, templates, social visuals	\$13
Entry-Level Stack	Phases 1-3	\$53/mo
+ Perplexity Pro	Research, market data, fact-checking	\$20
+ Genspark	Advanced research, competitive intel	Free-\$20
Full Stack	All Phases	\$73-93/mo

The average commission on a \$500,000 home at 2.5% is \$12,500 -- 134 months of the full stack. One additional deal per year makes the investment irrelevant.

Expected Results by Day 60

TASK	BEFORE AI	AFTER AI	IMPROVEMENT
Contract review	45-60 min	5-8 min	85-90%
Weekly client updates	30 min/client	5 min/client	83%
Social media content	4-6 hrs/week	45-60 min/week	75-85%
Lead response time	2-4 hours	Under 15 min	87-94%
Listing presentations	3-4 hours each	45 min each	75-81%
